

Frequently Asked Questions for the FarView

From all of the questions we have received over the years, we have made a selection of questions that are frequently asked. We hope that these questions and answers will be useful to you.

I am having trouble charging the battery. What do I do?

When the batteries do not charge correctly, try resetting the FarView unit. This should solve the problem.

How do I reset a FarView unit?

To reset a FarView unit, switch the unit on. When the unit has started up, press the <MENU> button together with the <FOCUS/RETURN> button simultaneously, and hold these two buttons pressed in for several seconds. The unit will then reset.

Can I place images and/or documents on my FarView?

No, unfortunately it is not possible to place images and/or documents on a FarView unit. You can copy pictures from the FarView to a PC, but not the other way around.
